TP-Link Omada Business Networking

Hardware and Software solutions for a future-proof Software Defined Networking

TP-Link

TP-Link Corporation is a Singaporean company with almost 30 years of Enterprise Networking experience. We distinguish oursel-ves from other vendors through 3 key advantages:

1. **Vertical Integration:**
    We produce our components internally, reducing costs and ensuring fast deliveries.

2. **Quality and Innovation:**
    With 2´000 engineers and 7 R&D centers, we are at the forefront of networking innovation.

3. **Local Presence:**
    We support you directly from Switzerland.

Exclusive Partner Program

Industry-leading Partner Program offering with exciting rewards and benefits, including: access to Local Sales and Pre-Sales, Project Protection and Pricing, Partner Margin Protection, Annual Bonuses, On-Site Trainings and much more.

Upon registration you can take advantage of our Not-For-Resale Kit at an exclusive 50% Discount, which includes: SG2008P Switch, OC200 Controller, EAP653 Indoor and EAP650-Outdoor Access Points.

Omada

TP-Link Omada provides one-stop access to high-quality services and high-performance products for small and medium-sized businesses, integrating complete network devices.

Recognized for 6 consecutive years in *Gartner® Magic Quadrant™ for Enterprise Wired and WLAN Infrastructure.

Products

Omada solutions include a comprehensive hardware portfolio:

- ✔ **SDN Controllers:** Designed for Simple Management, Easy Operation and Maintenance and Optimized User Experience. Controllers can be in Hybrid-Cloud (Hardware and Software) or Full-Cloud, synchronized to AWS servers.

- ✔ **Access Points:** Wi-Fi 7, 6 and 5 technologies in compact casing designed for every scenario.

- ✔ **Switches:** Wide selection of number of ports and of capabi-lities, up to 25G connection, L3 and POE++, supported by an extensive set of software features.

- ✔ **Routers:** Entry-level to premium options designed to ensure stable and optimized operations.

Responsive Support

Responsive support assistance in DE/FR/IT/ENG exclusively dedicated to B2B, with up to 5 years warranty on our products.

Our after-sales support helps you with timely intervention during and beyond business hours through Hotline, Chat or Email. For the most severe incidents an exclusive escalation path is provi-ded to our partners.
